ALFA ROMEO

Exclusively for the MiTo: CUSTOMISABLE
headlight and rear light surrounds,
available in Titanium Grey, Lucid Chrome,
Satin effect, Black opaque, brushed
titanium effect or body colour.

Tires with 16", 17" or 18" rims
with wide tread for true sports **HANDLING**.

DESIGN

Length 4.06 m - Width 1.72 m - Height 1.44 m
**Bold, muscular exterior. Streamlined features with
frameless windows. 4 comfortable seats inside.**

**This is the MiTo style, a car in which the
sporty silhouette is teamed with the comfort
of a compact saloon.**

Rear lights with **LED** technology, a design detail which accommodates the need
for high **VISIBILITY** and enhanced safety.

INTERIORS

Only the finest materials have been selected
to provide total comfort,

with FABRIC and LEATHER UPHOLSTERY
featuring unmistakable ITALIAN STYLE.

INTERIORS

Equipped with a superbly designed instrument panel featuring advanced graphical display.

The interior is **STYLISH** and intuitive.
Featuring a top-of-the-range dashboard and finishes.

ALFA MULTIAIR

Here is the technology that marks a new era for petrol engines. The MultiAir system controls the intake of air into the engine directly as it enters the cylinders, based on actual power unit requirements. The results of this management system are truly revolutionary: systematic reduction in fuel consumption and emissions, increase in power and maximum torque, optimisation of driving performance. All of this is achieved with no inlet camshaft, just the simple but revolutionary hydraulic valve control.

To optimise combustion EFFICIENCY

Alfa MultiAir can immediately adopt DIFFERENT STRATEGIES according to the driving situation.

Ignition or idling.

Delayed opening of the valve at partial engine load.

During acceleration.

Earlier closing of the valve, torque at low revs and full load.

Driving in the city.

Multiple valve opening during the same engine cycle, low torque and power.

Driving on the motorway.

Full opening of the valve, request for maximum power.

ADVANTAGES

- ⌚ An increase in MAXIMUM POWER output from 10% - 35% with a cam profile designed for high performance
- ⌚ Up to 15% more TORQUE in the low rev range thanks to direct control of valve lift
- ⌚ UP TO 12% faster pick-up thanks to the high pressure of air mass
- ⌚ Up to a 10% reduction in fuel CONSUMPTION and carbon dioxide EMISSIONS thanks to the elimination of pumping loss

The 1.4 TURBO MULTIAIR engine was awarded the coveted International Best New Engine of 2010 award in the 135 BHP and 170 BHP versions.

How MultiAir technology works

MultiAir technology allows the lift profile of the valves to be modified in response to the request for air from the engine. The results of this system are truly revolutionary: with the MultiAir system it is also possible to open the same valves twice during the same cycle, surpassing the structural limits of the mechanical camshafts. Different strategies can be employed to optimise the combustion efficiency, according to the driving situation.

LIVO
 (Late Intake Valve Opening)
 Engine partial load
 E.g. at engine start-up or idling

EIVC
 (Early Inlet Valve Closing)
 Torque at low revs and engine full load
 E.g. during acceleration

MULTI LIFT
 Multiple valve opening during the same cycle
 Minimum torque and power
 E.g. city driving

FULL LIFT
 Full opening of the valves when full engine power is required
 E.g. on motorways

TURBO TWINAIR

With a focus on technology, the MiTo is also available with the Turbo TwinAir engine, the last word in automotive engineering in terms of technology, performance and eco-friendliness.

875CC TURBO TWINAIR 85 BHP.

An extremely versatile revolutionary engine which offers the choice of **LIVELY** performance or **LOW FUEL CONSUMPTION** depending on the driving style.

The **TURBO TWINAIR** combines **MULTIAIR** technology with an innovative **TWO CYLINDER** layout to achieve maximum fuel efficiency, power, outstanding flexibility and response when needed.

Combined with **START&STOP** and **SMART ALTERNATOR**, TwinAir provides the lowest CO₂ emissions values for city driving than any other petrol engine in its class.

ADVANTAGES

The MiTo Turbo TwinAir adopts specific solutions capable of further increasing its performance:

- POWER. 85 BHP at 5,500 rpm of maximum power, with 145 Nm of torque available starting from 2,000 rpm and constant all the way up to 3,500 rpm.
- EFFICIENCY. A petrol engine with the fuel consumption and running costs of a diesel
- VERSATILITY. TwinAir interacts with Alfa D.N.A., allowing the driver to choose which of the engine's three driving modes to engage for their specific driving needs: Dynamic, Natural or All-weather
- COMFORT. The DMF (Dual Mass Flywheel) device ensures the best driving comfort by eliminating any vibration, with the smooth yet sporty sound of Alfa Romeo engines.

JTD_M-2

The second generation of MultiJet engines, a development of the Common Rail system, having made its debut on the MiTo.

Service internals of 21,000 miles demonstrate the reliability of this class-leading technology.

The 1.3 JTD_M: 85 bhp and 1.6 JTD_M: 120 bhp engines use special injectors which, courtesy of a balanced hydraulic servo valve, control the amount of diesel injected into the combustion chamber with a high degree of PRECISION. The result is a more RAPID and FLEXIBLE injection sequence compared to previous generation power units

ECO SOLUTIONS

ADVANTAGES

Optimising combustion makes it possible to achieve incredible results in terms of consumption, emissions, acoustics and steering capability.

18 - 19

The MiTo also has another device on board for reducing fuel consumption and emissions, available on all engines:

START&STOP AS STANDARD; a device that turns off the engine whenever the vehicle is stationary and idling, then re-starts it automatically. This system can be deactivated at will by the driver, but when active achieves a noticeable reduction in fuel consumption, emissions and noise pollution.

GEAR SHIFT INDICATOR - GSI: works in conjunction with Start&Stop and suggests when to shift to the gear best suited to optimise engine efficiency and reduce fuel consumption by illuminating a light on the control panel.

A simple step:
just shift the selector near the gear lever.
An advanced result:
the dynamics of the whole car change.

3 DRIVING position settings, **3 HANDLING** settings. This is Alfa Romeo D.N.A. and it changes the **RESPONSE** of the vehicle according to your **DRIVING NEEDS**.

cl *Dynamic*

n *Natural*

a *All weather*

— STEERING SYSTEM

It becomes **stiffer/softer** according to the mode selected

— POWER CONTROL MODULE

The mode selected will dictate the **responsiveness** of the accelerator pedal and whether to activate the Overboost

— VDC SYSTEM

It results in **three specific settings** for each of the three selector positions

— INSTRUMENT PANEL

The panel displays **car setting** information as well as indicating the **suggested gear** and displaying the turbo pressure gauge (where provided)

— ALFA ACTIVE SUSPENSION (available on the Quadrifoglio Verde version) The system makes the suspension stiffer or softer according to the mode selected

— ALFA TCT SEMI AUTOMATIC TRANSMISSION

In Dynamic mode, gearshifting takes place at a higher engine speed; the maximum comfort of the gear change is obtained in Normal mode.

ALFA D.N.A.

ALFA D.N.A.

22 - 23

Dynamic – Sheer fun and sportiness at the wheel

The mode for those who want something more from their MiTo: immediate reaction from the engine and great pickup when accelerating. For a truly intense driving feeling without ever forgetting safety.

VDC and ASR

- Sport calibration
- Intervenes only if control of the vehicle is lost

ENGINE

- Faster response
- Overboost for maximising the level of torque (where provided)

ALFA TCT

- Gearshifting takes place at a higher engine speed

SUSPENSION

- Stiffer with Alfa Active Suspension

ALFA ACTIVE STEERING

- Standard braking control coordinated with ABS
- More control over lateral acceleration
- Oversteer compensation: a slight pulse on the steering wheel encourages the driver to make the most appropriate corrections

STEERING TUNING

- Sportier calibration

Natural – in town: great comfort and low fuel consumption

The ideal choice for long trips and for everyday driving. In Natural mode the MiTo accompanies driver and passengers to their destination while providing utmost comfort and low fuel consumption.

VDC and ASR

- Standard calibration
- Intervenes only if control of the vehicle is lost

ENGINE

- Standard response

ALFA TCT

- Gearshifting takes place at a lower engine speed

SUSPENSION

- Less stiff with Alfa Active Suspension

ALFA ACTIVE STEERING

- Standard braking control coordinated with ABS
- Standard control over lateral acceleration
- Oversteer compensation: a slight pulse on the steering wheel encourages the driver to make the most appropriate corrections

STEERING TUNING

- Standard calibration

All Weather – Maximum roadholding and maximum safety

When poor grip conditions make the road more demanding, all you have to do is activate the All Weather setting. The electronic systems on board make braking safer and the car more stable.

VDC and ASR

- Calibration for maximum safety

ENGINE

- Standard response

ALFA ACTIVE STEERING

- Greater braking control coordinated with VDC
- Standard control over lateral acceleration
- Oversteer compensation: a slight pulse on the steering wheel encourages the driver to make the most appropriate corrections

STEERING TUNING

- Maximum comfort

ADVANTAGES

- Up to 10% LESS CONSUMPTION than the traditional automatic gear box with torque converter
- For the first time, a double clutch gearbox is combined with the START&STOP system: the result is a major reduction of fuel consumption and emissions
- Switch from automatic to manual sequential mode at the FLICK OF A SWITCH
- Faster, SMOOTHER SHIFTS without loss of power or mechanical jerking
- A sportier driving FEELING

ALFA TCT GEARBOX

The ALFA TCT semi automatic transmission selector has four positions: parking (P), reverse (R), neutral (N) and drive (D). From D you can select TIP mode for sequential shifting, which allows you to select gear manually, either by tipping the gear stick up and down or via optional paddles on the steering wheel.

It is a DUAL DRY CLUTCH semi-automatic transmission that has two gearboxes in parallel to engage the next gear while the previous gear is still engaged. With this architecture, ALFA TCT guarantees CONTINUOUS TORQUE and traction delivery without loss of power while shifting.

The development of a legend, today expressed
through state-of-the-art engineering.

The MiTo Quadrifoglio Verde combines technological appeal with exceptional attributes of **AGILITY**,
active safety and **DRIVING SATISFACTION**.

ALFA ACTIVE SUSPENSION

→ The electronic shock absorber control system
which actively and continuously changes **CHASSIS RESPONSE** depending
on the road conditions and the driver's needs.
The system interfaces with **ALFA D.N.A.**
and the other **ON-BOARD** electronic devices.

EXCLUSIVE DESIGN

→ Satin effect wing mirror covers, headlight surrounds and door handles.
Optional **SABELT®** bucket seats with **CARBON** fibre shell.
Exclusive **QUADRIFOGLIO VERDE** interior with **GREEN** stitching.

170 BHP ALFA MULTIAIR ENGINE

→ Powered by a revolutionary and award winning engine,
the MiTo Quadrifoglio Verde **HAS** to be driven to be truly appreciated.

QUADRIFOGLIO VERDE

170 BHP

PROTECTION

■ Passive safety: the best protection for driver and passengers.

- **7 AIRBAGS** as standard
- **SBR (SEAT BELT REMINDER)** technology: 5 icons displayed on a small screen inform the driver whether the seat belts of all the passengers are securely fastened
- **Anti-whiplash DEVICES** on seats
- **COLLAPSIBLE** steering wheel
- **STEERING COLUMN** designed to absorb impact energy in a controlled manner
- **STEERING-LOCK** accommodated out of the way of the driver's knees
- **LED** rear lights to improve the visibility of the car.

■ Active safety: fun at the wheel and prompt response.

- **ALFA ADAPTIVE SUSPENSION** variable-response shock absorbers (standard on the 1.4 TB MultiAir, 135 and 170 bhp and 1.6 JTDM₂ 120 bhp engines)
- **MACPHERSON** front suspension and rear torsion beam with semi-independent wheels
- **ELECTRONIC Q2** Reproduces the action of a self-locking differential
- **ABS** Anti-lock Braking System
- **EBD** Electronic Braking Distributor between the front and rear wheels
- **VDC** Electronic Vehicle Dynamic Control for better stability
- **ASR** Anti Slip Regulation system provides traction control by adjusting the brakes and ECU
- **HBA** Hydraulic Brake Assistance for emergency braking
- **HILL HOLDER** System to aid hill starts
- **MSR (MOTOR SLIP REGULATION)** controls engine braking when the accelerator pedal is released
- **CBC (CORNER BRAKE CONTROL)** System optimising braking performance on bends
- **ALFA ACTIVE STEERING** Integrates power steering with the VDC system: prompts the driver to compensate for oversteering by pulsing the steering wheel.

The road performance of the MITO offers something more:
pure driving pleasure and maximum safety.
A job entrusted to next generation technology.

Blue&Me™-TomTom® Live 2:

It's a genuine "communication window" for the car that improves the Blue&Me™ technology and allows navigation in total safety and complete comfort.

Latest generation navigator

- **4.3" display** with next-generation capacitive touchscreen.
- **Live Services** are offered free of charge for one year (**HD Traffic™**, **fixed and mobile speed camera database: Local search** with Google, **Weather**).
- **European maps:** maps of 45 countries, available on 4GB hard disk memory.
- **IQ Route** - only TomTom® uses actual speed data collected from millions of users to calculate the fastest route at any point in time. Imagine a route that takes into account rush hour, traffic lights, zebra crossings, school exits or even shopping crowds, every minute of every day.
- **Managing updates of maps and software** through the MyTomTom portal customised for Alfa Romeo.
- **Map error correction in real time** through MapShare™ and update sharing with the TomTom community.

Integration with Blue&Me™

- **Touchscreen and Car Menu interface** to manage your mobile phone conveniently as well as driving information.
- **Steering wheel controls** and voice commands.
- **Fuel Efficiency**, real-time information for handling gearshifting and accelerator movements correctly to make improving driving style easier.
- **Media Player operation** on the touchscreen.
- **Fuel level indication** and navigation to the closest petrol station.
- **Blind navigation** also in tunnels

Functional positioning

- **Blue&Me™-TomTom® Live 2** fits onto a special crash-tested mount in a visible, accessible position, with built-in power supply without leads or temporary wiring.

MULTIMEDIA

The MiTo passenger compartment is designed to house and incorporate the on-board multimedia technology.

The Blue&Me™ system is ideal for those who wish to use their mobile phone with Bluetooth® hands-free function and listen to music loaded onto an MP3 player or USB storage device. All this can be done in the greatest safety, thanks to steering wheel controls and voice commands.

* The list of compatible mobile phones is available online at www.alfaromeo.co.uk/blueandme

Alfa Integrated NAV

- **Audio**
Optimum sound quality is provided by this system, complete with CD/MP3 player and radio with steering wheel controls (where provided).
- **Telephone**
Using Blue&Me™ you can make hands-free telephone calls whilst driving and listen to your incoming text messages read aloud.
- **Trip computer**
Displays all data relating to your journey in real time including journey times, distances, speed and fuel consumption.
- **Navigation**
Two outstanding new features to optimise the duration and quality of your journey.
Mobile SD technology automatically loads and updates road maps, without having to revert back to the CD. Supplied with SD card with updatable maps for the whole of Europe.
Traffic Message Channel (TMC) displays traffic info received via the TMC/TMC PRO service offered by selected radio stations. In the event of heavy traffic or accidents, the navigator automatically recalculates your route.

Alfa Integrated NAV is designed specifically for the MiTo – this highly advanced system is integrated into a single console.

And for the best sound quality, the MiTo accompanies your trip with the latest BOSE® Hi-Fi Sound System (optional).

TECH FRIENDLY

PERSONALISATION

**Every MiTo can be tailored
to your own style.**

12 body colours.

A variety of surrounds for the headlights,
rear lights and wing mirror covers.

And more: sticker kits produced exclusively
by Alfa Romeo for the MiTo.

A range of MiTo identities, each with its own personality and style. Discover how your MiTo will look in the following pages. The pleasure of choice begins here.

ALFA ROMEO SERVICES

ALFA ROMEO AT YOUR SERVICE

3 YEAR ALFACARE DEALER WARRANTY

For your peace of mind, all Alfa Romeo UK cars are covered by a 3 year unlimited mileage warranty including parts, materials and labour. This comprises a 2 year unlimited mileage Manufacturer's Warranty plus an additional 1 year unlimited mileage Dealer Warranty. For full terms and conditions please refer to your Alfa Romeo Service and Warranty booklet.

8 YEAR ANTI-PERFORATION WARRANTY

Any perforation of the bodywork due to corrosion will be replaced free of charge during the first 8 years.

3 YEAR PAINTWORK WARRANTY

In the unlikely event of any paintwork defects, due to faulty materials or manufacture, we will rectify these free of charge during the first 3 years.

TRADE DESCRIPTIONS ACT 1968

Products offered for sale may differ from those described or illustrated in this brochure due to later production changes in specifications, components or place manufacture. The contents of this brochure are therefore to be treated as representations as to the current availability of products as described, or as to products actually offered for sale.

For further information, or to book a test drive contact us at www.alfaromeo.co.uk or call freephone 00 800 2532 0000 – Lines open Mon – Fri 9am – 6pm.

Discover Cloverleaf at www.cloverleafclub.co.uk – the free Official Alfa Romeo UK Membership Club and an online community of Alfa owners and enthusiasts.

FINANCE AND INSURED PRODUCTS AND SERVICES

ALFA ROMEO FINANCIAL SERVICES*

Who better to design a range of bespoke finance for your Alfa Romeo than Alfa Romeo? And how reassuring to know that the finance options available are as beautifully structured as the car itself. Alfa Romeo Financial Services has been created to meet the demands of the discerning Alfa Romeo driver – and as you'd expect, it offers more in every sense. Whether you are a business or a private customer, your Alfa Romeo dealer can show you examples of payment plans to help you to choose the option that best suits your finances.

You'll find the rates on a variety of options very competitive, including Alfa Romeo Preferenza and Hire Purchase. We can also offer you Guaranteed Asset Protection and SMART insurance. Beautiful cars, beautifully financed – what could be more fitting?

Please ask your Alfa Romeo dealer for more information or visit the www.alfaromeo.co.uk website.

Written quotations are available from Alfa Romeo Financial Services, 240 Bath Road, Slough, Berkshire, SL1 4DX.***

ALFA ROMEO CONTRACT HIRE**

If you are a company car driver with a "User Chooser" policy, very competitive quotations can be obtained through Alfa Romeo Contract Hire.

You can also include a full maintenance package within the monthly rental.

Contract Hire finance facilities are available subject to credit approval. Written quotations are available from Alfa Romeo Contract Hire, 240 Bath Road, Slough, Berkshire, SL1 4DX.***

THE FOLLOWING INSURED PRODUCTS AND SERVICES ARE PROVIDED THROUGH ALFA ROMEO FINANCIAL SERVICES*.

3 YEAR AA CONTACT ROADSIDE ASSISTANCE†

All new Alfa Romeo cars come with 3 years AA Contact, which includes Roadside Assistance, Home Start, Relay, Relay Plus and European Cover. This insured service is provided free of charge and is available 24 hours a day, throughout the year and also includes access to travel information, legal advice and technical information.

ALFA ROMEO MOTOR INSURANCE

Comprehensive car insurance at competitive premiums, with up to 65% No Claims Bonus transferable from your existing policy after five consecutive years of claim free driving. For a quotation, either ring 0800 023 2247, or visit online through www.alfaromeo.co.uk

Alfa Romeo UK reserves the right to make changes at any time, without notice, to prices, colours, materials, equipment, specification and models and also to discontinued models. Alfa Romeo UK is a trading name of Fiat Group Automobiles UK Ltd.

†The AA support service and the third year dealer warranty are only applicable to UK vehicles sourced from Alfa Romeo UK.

**Alfa Romeo Financial Services is a trading style of FGA Capital UK Limited. FGA Capital UK Limited is authorised and regulated by the Financial Services Authority for General Insurance.

**Alfa Romeo Contract Hire is a trading style of FGA Contracts UK Limited which is an appointed representative of FGA Capital UK Limited.

***Credit available to anyone aged 18 or over, subject to status. A guarantee and/or indemnity may be required.

To experience the pleasure of ownership and driving your new Alfa Romeo, the journey starts on www.alfaromeo.co.uk, the latest interactive way of researching and selecting your next car. All the information you need about the company, its products, customer service support, finance and insurance, latest campaigns and the dealer network are at your fingertips. You can also read up on what the press are saying about our vehicles in our News Centre. So visit our website and arrange a test drive at your nearest Alfa Romeo dealer today.
